Building Dreams, Brick by Brick: Where Quality Meets Honesty in Construction Excellence

## GORAZ & Kani KOLK Water Project

### Project Description:

This infrastructure project involves the construction and installation of a complete water distribution system, including pipelines, storage tanks, pumps, and electrical works. The scope includes:

#### 1- Pipeline Network:

- Ductile Iron Pipe C40 EN545 Tyton Ø6" – Total Length: 4,600 meters
- HDPE Pipe PE100 SDR11 TWPASS1075 – Total Length: 11,022 meters, with varying diameters
- 

#### 1) Concrete Water Tanks:

- (10m x 8m x 2.1m)
- (10m x 8m x 2.1m)

#### 2- Pump Chamber & Electrical Works:

- Installation of a dedicated pump chamber and associated electrical systems to support operations

Company/Ngo: KRG

## **Barmiza Water Project**

### **Project Description:**

This infrastructure project involves the construction and installation of a complete water distribution system, including pipelines, storage tanks, pumps, and electrical works. The scope includes:

#### **3- Pipeline Network:**

- a. Ductile Iron Pipe C40 EN545 Tyton Ø6" – Total Length: 6,300 meters
- b. HDPE Pipe PE100 SDR11 TWPASS1075 – Total Length: 15,070 meters, with varying diameters

#### **4- Concrete Water Tanks:**

- 5- One tank measuring 18m x 15m x 3m    One tank measuring 10m x 10m x 2m

- 6- **Pump Installation:** Multistage Pump with specifications: Power: 185 kW Speed: 1500 RPM Frequency: 50 Hz Voltage: 400V, 3 Phase IP Rating: IP55 Flow Rate: 100 m<sup>3</sup>/h Head: 350 meters

#### **7- Pump Chamber & Electrical Works:**

- a. Installation of a dedicated pump chamber and associated electrical systems to support operations

**Company/Ngo: KRG**

**Location: Erbil - Soran / kani Rash**

**Year: 2024**

**Duration: 150 days**

## High-Quality Aluminum Sulfate (Dry Granular Form) for Water Treatment

### Project Details:

High-Quality Aluminum Sulfate (Dry Granular Form) for Water Treatment  
We supply high-quality aluminum sulfate in dry granular form, specifically formulated for effective use in water treatment applications. Our product meets strict quality standards to ensure optimal performance in coagulation and purification processes.

### Product Specifications:

Molecular Formula:  $\text{Al}_2\text{O}_3 + (14-18) \text{H}_2\text{O}$

$\text{Al}_2\text{O}_3$  Concentration: 16.5% – 17%

Granule Size: 2–10 mm

$\text{Fe}_2\text{O}_3$  Content: Max 0.02% (Ideally 0.005%)

Insoluble Matter: Max 0.03%

pH (1% Solution): 3.0 – 3.6

Heavy Metals & Toxic Substances:

Lead (Pb), Arsenic (As), Mercury (Hg),

Cyanide: Not detectable

Our aluminum sulfate is ideal for municipal water treatment plants, industrial wastewater systems, and other purification applications requiring consistent performance and high purity

### Supply of Materials for Land-Based Survey

#### Project Details:

#### Supply of Materials for Land-Based Survey (LBS) – Defect Repairs

We are providing materials necessary for carrying out land-based survey defect repairs, which include the following items:

##### 1. Riprap Rocks

Size:  $20 \times 15 \times 0.7$  m

Size:  $20 \times 30 \times 0.5$  m

Size:  $20 \times 15 \times 0.5$

##### 2. Pipes and Protection

Ductile Iron Pipe – Diameter: 36"

HDPE Pipes – Diameters: 125 mm and 110 mm

Rock Shield – For pipeline protection

##### 3. Gabions

Size:  $1 \times 2 \times 1$  m

##### 4. Sub-base Material

Type A and Type B – For foundation and backfilling

##### 5. Boulders

Various sizes for slope stabilization, embankment protection, or foundation support
